CONDITIONS

Please Read Before Writing Your Orders

PLANTS BY MAIL

We can send small plants by mail free, when not less than one dozen plants are ordered at one time, but plants go better by EXPRESS, as the soil in which they have been growing is not disturbed, and we always put in enough to help pay the charges.

PLANTS BY EXPRESS

Express charges on plants and shrubbery, boxed, are 20 per cent. less than on general merchandise, and Express is safe and quick.

PLANTS BY FREIGHT

Large evergreens and shrubbery can be sent by Freight, as we carefully pack with damp moss so they would stand a two weeks' journey safely, and the charges are reasonable.

OUR FACILITIES FOR SHIPPING

Fayetteville is situated nearly in the center of the State of North Carolina, with lines of railroad running in every direction. We also have the old Cape Fear River, with its steamboat lines, making Fayetteville equal to the best as a distributing point. We can put plants in New York or Florida in thirty hours.

STOCK

We have the stock to fill satisfactorily all reasonable demands. We grow our own stock, with few exceptions. Our specialty for years has been the growing of EVER-GREENS and hardy plants for outdoor planting. A visit to our place will prove that we have them.

TERMS--CASH

Except from known patrons, our terms are cash with order.

Postoffice Orders or Express Money Orders

are the best way to send money. ONE OR TWO CENT STAMPS for amounts less than one dollar will do. We will not be responsible for currency in letters except they are registered.

Put name and address on every letter. If a lady, write (Miss) or (Mrs.) before your name. Every letter received is answered same or next day. So if you do not receive an answer in a reasonable time, write again. "Uncle Sam" is careful and prompt, but sometimes people forget to sign their names, or omit to write county or State on the envelope.

CLUBS

We offer no "chromos" nor clap-trap inducements. We aim to give full value for every dollar we receive. Our plants are well-grown, strong and healthy. But we are willing to pay for service rendered in getting up Clubs or large orders from a neighborhood or community, in money or plants, bulbs, etc. Write for terms.

FUNERAL DESIGNS

We have Crosses, Anchors, Wreaths, Pillows, Hearts, Shields, Lyres, Maltese Crosses, Standing Crosses, Harps, Stars, Sickles, and Gates Ajar, at from \$1.00 to \$25.00, White Cape Flowers and Immortelle designs at the same price; best quality pure White Doves, \$2.50 each.

We take particular care in making up designs and as we are connected by phone with both telegraph companies, orders by wire can be promptly filled.

CUT FLOWERS

for all occasions—Carnations in white, red or pink, and every winter we force thousands of Hyacinths, Narcissus, Freesias, Lillies of the Valley, etc.

GREETING

1911

§ SUNNYSIDE FLORAL NURSERY is now entering on its 39th year of growing and distributing plants and flowers in the good old town of Fayetteville (**now City of Fayetteville**). Yes, we are growing. We are *mending our ways*, building fine churches, public buildings, stores and handsome residences. Our merchants are wide awake and sell the the best of everything. Our schools are well manned and doing good work; we have as fine a citizenship as the sun shines on, and we have a good old "Scotch-Irish" welcome for all good people. And **Sunnyside** is growing too. Thirty-eight years ago we delivered our stock personally out of a little basket. Now we ship sometimes in carload lots, but just come and see us, and we will show you how it is done.

We are very much interested in the improvement of school and public grounds and renew our offer of last year as follows:

To church or public school grounds who will send us \$2.00 we will furnish plants to the value of \$3.00, or in the same proportion up to \$50.00, when we will furnish plants valued at \$75.00. This is the limit to any one society, but we will in any of the above cases be glad to give any advice as to planting or furnish plans free of cost. Of course if we have to send a distance to make plans we would expect our expenses paid. Now, **ladies**, it is up to you to show what can be done by a little determined, persistent, hard work.

Yours truly,

JAMES M. LAMB & SONS.

PALMS

We give Palms the right of way, as we think there is no other class of plants quite so fine for home decoration, and at the head of the list we place, for beauty and general utility, the

CYCAS REVOLUTA, OR SAGO PALM.

We have them in six sizes, each, at - - 50c to \$2.00

Latania Borbonica—fan palm, 15 to 18 in., each, 75c to \$1.00
Specimens, \$3.00 to \$5.00 each.

Araca Lutescens—very graceful, 18 in., each, 75c to \$1.00

Cocos Weddelliana—most graceful of all, 12 in., 50c

VENUS FLY TRAP.

DIONAEA MUSCIPULA.

This unique little plant is probably the most remarkable thing in plant life, as the species has only this one representative. Its nearest related plant, "Drosera," has little or nothing in common with it. It is found only in Southeastern North Carolina, but has a world-wide reputation. Each leaf divides at the end into two fleshy lobes that are extremely sensitive, and, armed with long bristles, as shown in cut, promptly closes on being touched by any insect, holding the captive until his struggles cease, when it opens again. Three plants, by mail, 25 cents.

NORTH CAROLINA STATE DEPARTMENT OF AGRICULTURE RALEIGH

W. A. Graham, Commissioner of Agriculture.

DIVISION OF ENTOMOLOGY:

Franklin Sherman, Jr., Entomologist.

Z. P. Metcalf, Assistant Entomologist.

S. C. Clapp, Inspector of Nurseries and Orchards.

CERTIFICATE OF NURSERY INSPECTION.

No. 21.

Season of 1910-'11.

THIS IS TO CERTIFY, that in accordance with the regulations of the North Carolina State Board of Agriculture, by authority of the Legislature, the salable nursery stock for sale by Sunnyside Floral Nursery, at Fayetteville, N. C., has been inspected by a duly authorized Inspector, and has been found apparently free from dangerously injurious insect pests and plant diseases.

This certificate does not apply to stock not grown in the aforesaid nurseries unless such stock is covered by proper certificate in favor of the nursery where grown; it is not transferable, and may be revoked for cause.

LANDSCAPE GARDENING

THIS is looked upon as one of the fine arts by thoughtful people. Shenstone wrote: "Men learn to build grandly before they learn to garden finely."

Our Robert J. Lamb devotes his whole time to this branch of our business. He is the third generation of "Lambs" to follow this "art", for it is the highest type of art to be able to get into the good graces of nature—tickle her until she smiles and looks her sweetest.

We can handle anything from the City Lots to the Public Parks. If interested write for further information.

CHRYSANTHEMUMS

We have a good collection of this popular plant in all colors, from pure white to dark maroon. Will be ready to plant out in April and May. 7 cents each, 75 cents per dozen, each labeled; or 20 plants, not labeled, for \$1.00.

ROSES

SOME OF THE NEWER ROSES AND NOVELTIES OF RECENT INTRODUCTION.

CUT FLOWERS

There are none of the smaller industries that have grown so rapidly in the last 25 years say, as the growing and forcing of flowers for market. All the large cities are now

surrounded by immense plants for the production of cut flowers for the wholesale markets, and these flowers are handled by wholesale houses or in some cases by exchanges, and distributed to over ten thousand retail Florists who make up into bouquets, designs, etc., and who only come in contact with the people who buy flowers. In all the smaller cities we have Florists who grow and make up their flowers, but for special occasions like Christmas and Easter they have to fall back on the wholesale men for flowers, so we have the increase in price at these seasons. Up to last Christmas we have always tried to protect our customers but always at

a loss —ourselves—so we have finally come to the conclusion that it is not our job to reform the flower business. We will do our best to get the best flowers grown when we have to buy, and furnish at such a price as to give a reasonable profit.

We have three houses largely devoted to growing cut flowers and can usually meet all demands, but as we do not force roses in winter our customers will please advise us of their wants in time to have them on hand.

As to our ability to make up designs, etc., we have many kind things written us by pleased customers that modesty forbids we should print, but which we keep and appreciate.
